

Fellowship in Advocacy,  
Community Engagement, and  
Social Entrepreneurship

# FACES in

# Georgia Perinatal Health

A one-year interdisciplinary fellowship focused on how students from various professions can work together to improve maternal health in Georgia

## Programming Includes:

Advocacy training | Partnering with local organizations for service learning | Attendance at legislative events | Meeting with entrepreneurs in perinatal health | Project development through partnerships with local organizations

## August 2024–April 2025

- Monthly programming
- Experiential and service learning
- Open to students from all Emory schools
- In-depth view into the ongoing work to improve outcomes in perinatal health
